This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE.

THE intention of the Tables here submitted to the Public, was to supply a want much felt in the business of the Establishment to which the Compiler has the honour of belonging, but as several Gentlemen to whom it was shewn expressed a wish that the same should be published, many additions have been made, rendering it more useful for general reference.

Several publications upon the reduction of Deals to various Standards, have issued from the press within the last few years, displaying much ingenuity, and exhibiting a great amount of labour; but the Compiler flatters himself that these Tables are more practical than those hitherto circulated, and will therefore be found acceptable to all persons engaged in the Timber trade, as well as to Dock Companies, Merchants, Brokers, and Ship Owners.

EXPLANATION.

THE product of the multiplication of 12 feet 1½ inches by 11 inches (the dimension of a Petersburg Standard Deal) being 198, the following Tables of Reductions to Standard are calculated to the fractions of that number.

A Table of parts reduced to Standard Deals is given at the commencement of the work, which will shew in one line the number of Deals and parts that the addition of the fractions will produce.

The Examples subjoined will illustrate the mode of working.

DUTY ON WOOD GOODS.

DEALS AND BOARDS. } Sawn or Split, planed or dressed.

(Duty 2s. per Load).

Upon the abolition of the differential wood duties, an application was made by the Trade of London to H.M. Board of Customs, requesting the adoption of an uniform practice in computing the content of Foreign and Colonial Deals for duty.

The Board, by their order of the 21st of March, 1860, granted the application, and directed that in future Foreign Deals be computed for duty on the specification furnished by the merchant, in the same manner as approved for Colonial Deals, per Board's General Order, dated 27th February, 1843.

EXAMPLE.

Multiply the lengths of each dimension by the number of pieces, which will produce running feet; then by the thickness and width, and divide by 144, which will give the result in cubic feet.

DUTY ON WOOD GOODS.

Board's Minute, dated 13th July, 1860.

1. *Deck Deals.*

   The Merchant's Specification to be adopted for ascertaining the cubical content, and in those cases in which the width of the Deals may be omitted in the Specification, eleven inches to be taken as the average width.

2. *Lathwood.*

   A Specification of the number of frames, and the length of the wood to be received in all cases in which the merchant may be willing to furnish such particulars, the cubical content of the goods to be ascertained according to the rules laid down in the annexed table; but in those cases in which no Specification may be given, the wood to be framed as heretofore, and the length to be taken to half a foot instead of an inch as at present.

3. *Norway Balk Fir Quarters, and Scantling, when cut into* 4, 5, *and* 6 *inches square, with regular sides.*

   The cubical content to be ascertained by taking the lineal lengths only, and multiplying the aggregate quantity, if 4 inches square, by 16; if 5 inches square, by 25; and if 6 inches square, by 36; and by dividing the product by 144, in accordance with the Example in the Table.

4. *Railway Sleepers.*

   The number of pieces specified in the Bill of Lading to be adopted, in those cases in which the several sizes and full particulars may be furnished with the entry for the goods, and 60 pieces of each assortment to be measured for an average in all parcels of 500 and upwards, and 10 per cent. on parcels under 500.

5. *Firewood*

   May be entered according to the entire quantity specified in the Bill of Lading and delivered without framing, in all cases in which the merchants may be desirous of doing so; when not so entered the wood to be framed as heretofore.

The Board approve of the Table, and of the foregoing Regulations, and direct that the same be printed and circulated for the information and guidance of the several Officers concerned. The Board further direct that in all cases in which the Merchant's Specification, or copies of bills of lading, may be furnished with the entries for such Wood goods as are allowed to be delivered on the Merchant's specification, the tidewaiter on board the importing vessel be directed to fill up and sign the lighter notes, and release the barges, with the exception of the last, which is to be cleared by the Wood Farm Officer, but not until the duties on the goods shall have been paid, and the accounts adjusted.

Digitized by Google

And with the view of further facilitating the delivery of the goods, the Board direct that in those cases in which deals and battens may be landed and assorted in the Docks in London or other ports, where the returns from the Dock Companies govern the payment of freight, dock charges, and the sale of the goods, the total number of pieces comprised in the cargo, and the aggregate of the St. Petersburg standard, as reduced by the Dock Companies for payment of freight, dock charges, and for sale, be received as the basis for ascertaining the cubical content of the cargo.

The acceptance of the Merchant's Specification, or Dock Companies' returns, as the basis on which the duties chargeable on Wood goods is to be calculated, will not only afford relief to the merchant, but be productive of considerable facilities in discharge of the importing vessel; the Board feel however that they would not be justified in dispensing altogether with the means of testing the accuracy of these documents, and they therefore deem it proper to require, as a condition to the adoption of the foregoing regulations, that the original bills of lading be exhibited to the proper officers at the time of the passing of the prime entries, except as respect deals and battens, delivered according to the Dock Companies' returns, in order that an opportunity may be afforded for comparing the documents, and of obtaining the necessary information prior to the delivery of the goods; and copies of this minute are to be delivered to the proper Officers in London, and transmitted to the Collectors and Comptrollers at the several out-ports for their government.

SORTING WOOD GOODS.

PLANKS, DEALS, AND BATTENS.

Planks, Deals, and Battens are not sorted for quality in the wood Docks of London, unless specially ordered, but are piled away according to their respective Country marks.

Mill sawn and other well manufactured deals (excepting those subsequently referred to) are sorted for length to eight inches, and for width and thickness, to one-eighth of an inch.

Gefle, hewn-edged and roughly manufactured goods, are taken up for length in the manner before described, but are sorted for width and thickness, to the quarter of an inch.

A deal therefore that measures 13 feet 8 inches in length, 2⅞ inches in thickness, and 8⅞ inches in width, is considered to be of the dimension of 14 feet 3 inches, by 9 inches on the mill sawn guage; and a deal measuring 13 feet 8 inches in length, 2¾ inches thick, and 8¾ inches wide, is denominated 14 feet 3 inches, by 9 inches on the Gefle gauge.

Unless instructions are given to sort for widths, Planks from Memel, Dantzic and Riga, are measured for length and thickness only; widths are estimated as under:—

Memel and Dantzic	11 inches.
Riga	10½ to 11 inches.
